How to Use the Russian Keyboard Layout

After you setup the Russian keyboard in Windows, you can easily switch between Russian and the system language (i.e., the language of Windows in your computer). You switch languages using the keyboard selector located in the Task Bar at the bottom of the computer screen.

1. When you setup the Russian keyboard, you will see a language indicator on the Task Bar to the right near the System Tray. For example, if you are using English Windows, the language selector box will say "EN." If your Windows is French, it will say "FR."
2. Open the application in which you wish to type.
3. Click inside the application. For example, if you wish to type in Microsoft Word, open the Word and click inside the text edit area.

4. Left click on the language selector box to open the keyboard menu.
5. Click on the desired keyboard layout in the keyboard menu.
6. After you have selected the desired language, you can start typing in the selected keyboard language.
7. If you wish to return to the system language, click on the language selector box and select the desired keyboard.

How to Type Russian Characters

There are no special instructions for typing in Russian in Windows. If the text entry is not correct, you should contact your software manufacturer tech support.
